

Beat Service

Bio

Behind alias 'Beat Service' is young Estonian Madis Sillamo, born on the 1st of August 1982 in a small town called Pärnu. He has been producing tracks for his own fun and friends to listen since 2004.

First bigger success with producing was in January 2007, when Beat Service made a remix to DNS Project's track „Invisible Touch“, which was released on Five AM Records new sublabel Flütterspark. The track gained huge support after promotion. It got played by names like Marco V, Sander van Doorn, Mike Foyle, Lange, Ronski Speed, Niklas Harding, Bart Claessen, Gareth Emery (Podcast), Sean Tyas, Bobina (Live), Menno de Jong (Intuition Radio Show), Mark Sherry, Michael Burian (Sensation White Prague Live), Yanave/Evanya, DJ Choose, Matt Darey, Jon O'Bir, Adam White, Mike Shiver to name a few! In DJ Mag, the remix was reviewed as "dancefloor smasher" hit. Invisible Touch reached position 2 in one of the Baltic States biggest dance music radio station POWER Hit Radio's 2007 year top 40 chart (listeners vote).

In summer of 2007, Beat Service made collaboration with DNS Project, under the alias "Polymental". Now they are producing tracks together and also doing live gigs. Of course they still release tracks separately under their native aliases as well.

After great success with the „Invisible Touch“ remix, alias Beat Service got more attention and next remix was also a smasher. Beat Service remixed Stone Canyon feat. LDN, an artist under Five AM Records. Track called „Rest Here“ got also huge support by the names like Ferry Corsten (Corsten's Countdown), Menno de Jong, Vast Vison, Manuel le Saux and many more.

After great remixes, Bonzai sublabel Camouflage released Beat Service's own track called „Sky Cafe“, with the remix from DNS Project. Remix got really good support from the names like Dj Tiesto (ISOS Tour, ClubLife Radioshow) , Armin van Buuren (ASOT), Aly & Fila to name a few.

New tracks and remixes are constantly under production, many of them are already released. To name a few new releases, there is forthcoming EP called „Nectar“, which includes 2 mixes and bonus track called „Ricochet“ which is already being hammered by the tech-trance dj Mark Sherry! „Nectar“ is going to be released at Ask4 Records in November of 2008.
