### Bio

Waterspark, by his real name Daniel Costache, is a new trance producer from Romania. At about the age of 12 he came in contact with electronic music through a radio show, thus being charmed by the sounds of trance music in particular.

He was introduced to a computer program named Rebirth and... thus sounds started coming into his mind. Later inspired by sounds like that of Armin Van Buuren or Ferry Corsten, he made up his mind to become a music producer. After a few years of 'playing around', growing up, he took up learning music, currently being a student at a private music university.

Being mostly uplifting trance with some bits of other genres like tech-trance, electro and progressive house, you could say his music reflects (as he would say) "his own sense of ethereal energy".
